

Call for Abstracts

Call for Abstracts

The organisers invite prospective authors to submit an abstract related to the conference. Abstracts should not exceed 300 words in length and should be submitted through the conference website:

<https://bioinspired2018.dgm.de>

Please indicate whether an oral presentation or a poster is preferred.

In particular young scientists are very welcome to actively contribute to the conference by submitting an abstract.

The abstracts will be evaluated in November 2017, and if accepted, the authors will be informed about the kind of presentation (oral or poster).

The Scope

The focus of this 4th biennial conference is on the design of functional materials and systems inspired by principles found in living nature. The main aim is to establish an international and interdisciplinary forum for scientists from a variety of fields including biology, chemistry, materials science and engineering, physics and medicine to discuss current research and to identify future research directions in the field of bioinspired materials. Main topics include the formation, hierarchical structure and the properties of complex-shaped biological materials. Furthermore, contributions are invited dealing with propulsion and movement of biological objects.

The transfer of biological principles onto functional materials and systems made of organic and/or inorganic components represents a further main area, which is covered by this conference. Beside materials synthesis and formation, the conference topics also include research on the functional and mechanical properties thereof. Both experimental studies and theoretical modelling shall be considered. Furthermore, the interaction of bioinspired materials with living environments, e. g. tissues and organs, related to medical aspects and applications fit within the scope of this conference.

In addition to invited plenary lectures, the conference encompasses oral and poster presentations. Moreover, contributions related to the Priority Program 1569 (Generation of Multifunctional Inorganic Materials by Molecular Bionics) of the Deutsche Forschungsgemeinschaft will be included.

Exhibition and Advertisement

Exhibition

The exhibition will be held in conjunction with the conference. Coffee breaks, lunch and poster sessions will be held in the exhibition area.

Price per m² 195 EUR + 19% VAT

This includes:

- Exhibition area (min. 6 m²)
- Publication of your company logo on the conference website
- Publication of your company logo and company profile (max. 1,000 characters) in the programme brochure and on the conference website
- One exhibitor pass+ which are also valid for the scientific programme
- Electricity (220V)
- Furnishing (1 Table, 1 Chair)

Placing will be done by order of registrations.

Exhibitors may place their job offers free of charge on the conference website and in one edition of the DGM-newsletter.
